

CCC 2 year old Beginning Preschool program (Age 25 months -36 months)

Kiddos at this age are so eager to get out and explore and learn. Our program arranges their day so they get to spend ample time outside, learning about their world and observing things they see. Two year olds love to gain independence and master new skills so we couple this season with our potty training program. The 2 year old classroom has an attached bathroom making it easy whenever nature strikes.

In keeping our class size small the kids get to master social skills, the teacher models communication & how to state their needs. Our program builds upon the foundation that was set in our 1 year old program by expanding their creative options and adding more complex art supplies while there is more emphasis on adding to the academic awareness of shapes and colors, numbers and letters.

Circle time for this age is later in the day so that no matter what time of day the kids join the class they get the advantage of learning about Jesus through Bible stories that are interactive and take them back in time and broaden their imagination!

DAILY SCHEDULE:

For children ages 2 ~ 3 years
